PROFESSIONAL EXPERIENCE

PT BIDADARI ALAM SEMESTA

2022 - 2026

Mandarin Tour Guide & Officer – Bali

- Guide and managed tour groups of various sizes, ensuring schedules were followed smoothly and on time
- Delivered engaging and informative presentations on history, culture, and local attractions
- Coordinated with external parties such as transportation providers, restaurants, and venue managers
- Assisted participants with inquiries and needs, ensuring comfort and satisfaction throughout the journey

PT REALTA CHAKRADHARMA

Feb 2026 – Jul 2026

IS Consultant Intern

- Bridging the gap between client business requirements and technical software solutions
- Simulating real-world troubleshooting scenarios to effectively analyze and resolve client system complaints
- Guiding clients through onboarding, providing functional recommendations
- Partnering with teams while guiding clients to optimize system usability and adoption

PT MDS RETAILING TBK

Jul 2026 - Present

IT Governance & Security Intern (Dual Role: IT User Support)

- Collaborating with the IT Governance team to develop, refine, and enforce IT policies and Standard Operating Procedures (SOPs) across enterprise business units.
- Co-authoring the ongoing Third-Party Access Management Policy, establishing strict identity validation, least-privilege permissions, and lifecycle controls for external vendors.
- Providing technical IT User Support, resolving daily hardware, software, and access issues via remote support software to ensure high operational up time.
- Assisting with user administration, asset discovery, and endpoint compliance monitoring using IT management software.

PROJECTS

Third-Party Access Management Policy | PT MDS Retailing Tbk

Ongoing

- Co-developing an enterprise policy to mitigate third-party supply chain cyber risks by governing vendor remote access, privileged account lifecycles, and confidentiality agreements.
- Mapping vendor onboarding/offboarding workflows and standardizing approval chains to align with enterprise security control baselines.

JastipNow – Personal Shopper & Logistic Platform | BINUS University (Academic Project)

- Collaborated in a project team to analyze, design, and model "JastipNow", a peer-to-peer personal shopping platform as part of the Advanced Information Systems Analysis and Design coursework.
- Designed system architecture, UML process flows, functional requirement specifications, and interactive wireframes.
